

I:I VECTORISED FINAL ARTWORK TEMPLATE

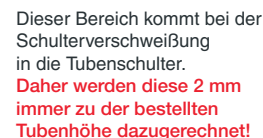

INFO

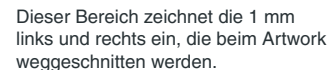

*This area is for
background graphics or colour.
No text may be placed here!*

This area goes to the back of the tube during welding. Therefore, this area should be aligned with the back of the tube.

This area comes into the tube shoulder during shoulder welding. Therefore, these 2 mm are always added to the ordered tube height!

This area marks the 1 mm left and right that will be cut away from the artwork.
